Unique, patented 3D biopolymer technology

Lubex anti-age® dual face mask

Unique, patented 3D biopolymer technology

The mask is a **combination** of **cellulose mask** and **serum** with a **dual effect**. One mask contains **20 ml** of highly concentrated **serum** with a number of scientifically proven anti-aging active ingredients, providing an intensive effective treatment

Laboratory tests conducted with Lubex anti-age dual face mask show that Lyocell masks provide maximum hydration, ahead of cotton masks and significantly ahead of serum applied without a mask.

Free from preservatives Free from liquid plastics Dermatologically and ophthalmologically tested

Lubex anti-age® dual face mask

Patented 3D biopolymer technology Immediate face lift & 24h moisturiser

Dual-effect serum

- Effect 1: Releases active ingredients like a conventional serum Hexapeptides, vitamin C glucosides and niacinamide have synergistic effects, increase collagen production, reduce wrinkles and provide a lifting effect, firmer skin and contours. Vitamin C glucosides, alkyl lactate and Crithmum maritimum extract give an even and radiant complexion.
- Effect 2: Forms the patented 3D biopolymer mesh on the skin:
 The 3D biopolymer mesh consists of alginates and biosaccharide gum-1. These two ingredients have excellent hydrating properties in themselves. They are enhanced by the mesh's reservoir systems, which are filled with niacinamide and high- and low-molecular weight hyaluronic acid.

While using the mask, the patented 3D biopolymer active ingredient mesh covers the face like a second skin. This allows sodium hyaluronates and niacinamide to penetrate continually into the skin, smooth the skin surface, provide intensive hydration and supply the skin continually with moisture for up to 24 hours.

- Inherent efficacy with moisturising, filmogenic and protective properties
- Active ingredient reservoir for optimal release in the skin and long-lasting effects

Biopolymer molecular networks

Lyocell cellulose

The mask is made of a bio-cellulose called Lyocell, to which the serum concentrate is applied.

Lyocell is substantially more effective than other materials for masks (e.g. cotton).

Laboratory tests conducted with Lubex anti-age dual face mask show that Lyocell masks provide maximum hydration, ahead of cotton masks and significantly ahead of serum applied without a mask.

Both forms of application hydrate more efficiently than serum applied without a mask.

Clinical and dermatological observation studies*

significant improvement in skin hydration*

* significant difference: Study report N° 14-09.2020a Performance Lab., September 2020

Ingredients: Aqua, Glycerin, Methylpropanediol, Pentylene Glycol, C12-13 Alkyl Lactate, C14-22 Alcohols, Ascorbyl Glucoside, Niacinamide, Ectoin, Caprylic/Capric Triglyceride, Xanthan Gum, p-Anisic Acid, C12-20 Alkyl Glucoside, Propanediol, Sclerotium Gum, Lecithin, Sodium Hydroxide, Sodium Hydroxide, Pullulan, Parfum, Crithmum Maritimum Extract, Tocopherol, Algin, Silica, Galactoarabinan, Glucose, Glycine Soja Oil, Caprylyl Glycol, Dipeptide Diaminobutyroyl Benzylamide Diacetate, Acetyl Hexapeptide-8, Maltodextrin, Biosaccharide Gum-1.

Instructions for use

Cleanse

Cleanse the eye area and face with Lubex anti-age eye make-up remover and/or Lubex anti-age cleansing milk. Carefully unfold the mask, remove the blue protective backing and gently apply the mask to the face. Allow to work for 15 to 20 minutes while relaxing.

Massage serum into the skin

Feel good

Remove mask and massage the remaining serum into the skin. After use, the 3D biopolymer active ingredient mesh supplies the skin with anti-aging active ingredients and moisture for up to 24 hours.

Lubex anti-age feel unique

In short:

Immediately firmer skin:

Lift effect restructures and gives a flawless, radiant complexion.

24-hour intensive moisturisation:

Smooths the skin, improves elasticity and provides significant hydration for up to 24 hours.
